Product Designer and Product Engineer specializing in AI-powered SaaS products, enterprise applications, and mobile experiences. I design and build digital products end-to-end, combining product strategy, UX design, information architecture, interaction design, and front-end engineering to transform ideas into production-ready products. My experience spans enterprise software, native iOS applications, and AI-powered SaaS platforms, where I work across product discovery, design systems, implementation, and product launch. I bridge design and engineering to build practical, scalable, and user-centered digital products.

Core Capabilities

- **Product Development**
Product Strategy, Product Discovery, Product Thinking, Information Architecture, Feature Prioritization
- **UX & Product Design**
UX Design, UI Design, Interaction Design, User Flows, Wireframing, Prototyping, Design Systems, Responsive Design, Accessibility
- **Front-End Engineering**
HTML, CSS, JavaScript, TypeScript, Next.js, Tailwind CSS, Bootstrap, ASP.NET Web Forms
- **Mobile Development**
SwiftUI, Xcode, App Store Deployment
- **AI & SaaS**
OpenAI API, Supabase, Playwright
- **Development & Deployment**
Git, GitHub, REST APIs, JSON, Docker, Render, Vercel
- **Design Tools**
Figma, Adobe Photoshop, Adobe Illustrator, VS Code

Product & Design Skills

- **Product Strategy & Discovery:** Product discovery, problem framing, feature prioritization, requirements definition, roadmap input
- **UX & Interaction Design:** User flows, wireframing, prototyping, information architecture, interaction design, design systems
- **Visual & Responsive Design:** UI design, responsive design, accessibility-aware design
- **Collaboration:** Cross-functional partnership with engineering, business, and executive stakeholders within Agile workflows

Projects

DOVENI – AI-powered Release Intelligence Platform

Founder • Product Designer • Product Engineer

- Conceived, designed, and built DOVENI, an AI-powered Release Intelligence platform that helps product teams evaluate digital products before launch.
- Led the product from concept through UX strategy, information architecture, design systems, front-end engineering, and production deployment.
- Designed AI-assisted evaluation workflows covering UX, accessibility, localization, visual quality, and release readiness.
- Built scalable product interfaces, dashboards, and evaluation experiences focused on helping teams make evidence-based release decisions.
- Worked across product strategy, engineering, AI integration, and deployment to deliver a production-ready platform.

Toura – Mobile Product

Native iOS application • SwiftUI • Published on the Apple App Store

- Conceived, designed, and launched a native tourism application from concept to App Store release.
- Led product strategy, UX, interface design, and SwiftUI implementation.
- Designed scalable navigation, reusable UI components, and mobile interaction patterns.
- Integrated backend services to support a complete production workflow.
- Delivered an end-to-end product covering research, design, engineering, testing, and launch.

Enterprise Digital Products – Saudi Aramco

Internal enterprise platforms • HTML • CSS • Bootstrap • ASP.NET

- Designed and delivered enterprise interfaces supporting operational and executive business workflows.
- Collaborated with multidisciplinary teams to translate business requirements into scalable digital products.
- Improved usability, accessibility, and consistency across multiple internal platforms.
- Built production-ready front-end experiences integrated with enterprise services through REST APIs.
- Contributed to Agile delivery across multiple enterprise applications.

Selected Highlights

- Built an AI-powered SaaS platform from concept to production.
- Published a native iOS application on the Apple App Store.
- Designed and delivered enterprise applications supporting Saudi Aramco teams.
- Delivered end-to-end digital products by combining product strategy, UX design, and engineering.
- Experience spanning enterprise software, mobile applications, and AI-powered SaaS products.

Work Experience

Front-End Developer - Saudi Aramco (Contractor)

May 2023 - Feb 2026

- Delivered production front-end features and dashboards supporting enterprise business operations.
- Collaborated with designers, engineers, and business stakeholders to build scalable enterprise applications.
- Improved usability, accessibility, and consistency across multiple internal platforms.
- Translated UX/UI concepts into maintainable production code using HTML, CSS, JavaScript, Bootstrap, and ASP.NET.
- Contributed to Agile delivery using Git-based workflows and REST API integrations.

Graphic Designer - Saudi Aramco (Contractor)

Dec 2021 - Apr 2023

- Designed visual and digital materials for internal platforms, corporate events, and communication campaigns, strengthening visual communication across departments.
- Created branding, presentation, and digital assets supporting major internal forums and corporate programs.
- Translated complex information into clear visual experiences that improved stakeholder engagement.

Graphic Designer - Tamimi Markets

Aug 2020 - Nov 2021

- Produced marketing campaign, packaging, and social media visuals that strengthened brand visibility across channels.
- Partnered with marketing teams to deliver promotional materials aligned with brand guidelines and campaign objectives.

Graphic Designer - SIMA Creative Global Co.

Aug 2018 - Feb 2020

- Delivered branding and advertising design projects for corporate clients including Saudi Aramco, Schlumberger, and Baker Hughes.
- Led event branding and marketing material design, supporting brand communication for large-scale corporate accounts.
- Built foundational expertise in visual identity, branding systems, and working with corporate clients.

Education

- Bachelor's Degree in Business Administration - King Faisal University
- Diploma in Management Information Systems - Al-Alamiah Institute

Certifications

- Foundations of Project Management - Google (Coursera), 2026
- Google UX Design Professional Certificate - 2022
- Web Design for Everybody - University of Michigan (Coursera), 2023
- Front-End Engineer Career Path - Codecademy
